

WHAT IS CLAIMED IS:

1. A fastening device for anchorage to a receiving seat, wherein it comprises a body with projecting side walls and a piano-wire cage extending around the body in a resilient manner.
2. A fastening device according to Claim 1, wherein the body comprises a threaded hole.
3. A fastening device according to Claim 1, wherein the body comprises a threaded or non-threaded pin.
4. A fastening device according to Claim 1, wherein the body comprises a blind or through seat.

The whole as described and illustrated and for the purposes specified.
